Date

RETURN TO: THE ACE FACE CLOTHING COMPANY, LOWLANDS FARM HOUSE, EASTBOURNE ROAD, NEWCHAPEL, SURREY, RH7 6LF.

MEASURING GUIDE

This guide is intended to help you take accurate measurements. Before you begin you will need the following:-

- A fabric measuring tape (please take all measurements in inches) – please keep the tape taut unless otherwise stated below.
- Wear a pair of trousers, shoes and a shirt (do not wear jeans). Have a suit jacket ready too.
- A friend who can assist with measuring you because you need to stand up straight.

COSS BACK

Measure from the middle seam of your jacket back to the sleeve join (normally around 9 - 10 inches)

JACKET LENGTH

Measure from the nape of your jacket to where you would like your tonic jacket to finish or where the jacket you are measuring finishes

TROUSER OUTSIDE LEG

Measure from the top of the trouser waistband to where you would like the trousers to end.

TROUSER INSIDE LEG

Measure from the lowest part of the crotch of your trousers to where you would like the trousers to end.

WAIST

Measure around your waist just where you like to wear your trousers, and allow your index finger to fit inside the tape for comfort.

BOTTOM CIRCUMFERENCE

Also known as your 'seat'. Measure around the widest part of your bottom but don't keep the tape too taut, you want to be comfortable! Also remove any items from your pockets.

YOUR HEIGHT

Measure your height just wearing socks. The tape should start from the top of your head to the floor. A good tip is to stand against a wall.

CHEST CIRCUMFERENCE

Measure under the armpits, over your shoulder blades and at nipple level. Stand normally and keep the tape comfortable, not taut.

TUMMY CIRCUMFERENCE

Measure around your stomach allowing room for breathing/movement.

SLEEVE LENGTH

Wearing a suit jacket, measure from the seams on the shoulder to where you want the sleeve to end.

If you have any questions or need further help, please email info@acefaceclothingcompany.com. Remember that we will happily take your own tailor's measurements.
